PROFESSIONAL SUMMARY

Computer Science graduate (S.Kom) skilled in leading teams and building end-to-end web applications with PHP Laravel. At PT Inti Ganda Perdana (Astra Otoparts Group), digitized the employee competency testing process and analyzed results into Training Need Analysis recommendations. Designed cloud architecture on GCP during the Bangkit Academy program (Google, GoTo, Tokopedia, Traveloka) and led a Laravel-based student information portal as capstone project. Fast learner focused on technologies that improve team efficiency.

EDUCATION

Universitas Singaperbangsa Karawang, Karawang, Indonesia **Aug 2022 – Aug 2026**

Bachelor of Computer Science (S.Kom) — GPA: 3.72 / 4.00

- Relevant Coursework: Algorithms & Data Structures, Software Engineering, Web Programming, Databases, Cloud Computing.
- Capstone Project (Thesis): KIP-K Unsika Information System — a centralized student information portal built with Laravel and Filament (full details under Projects).

SMK Negeri 50 Jakarta, East Jakarta, Indonesia

Aug 2019 – Jul 2022

Multimedia (Vocational High School) — Final Score: 86.00 / 100.00

- Earned a BNSP Multimedia Competency Certification; built a foundation in graphic design, audio-video production, and digital content editing.

PROFESSIONAL EXPERIENCE

PT Inti Ganda Perdana (Astra Otoparts Group), Jakarta, Indonesia

Feb 2026 – Aug 2026

Knowledge Management Dept., Human Resources Division

- **Employee Competencies Development Program (2026):** Served as Data Analyst, identifying maintenance-department competency gaps to inform Training Need Analysis recommendations.
- **Working Instruction Video (2026):** Converted static Working Instruction documents into instructional videos on the company portal, improving procedural understanding and consistency across teams.
- **ECDP Process Digitization (2026):** Led the shift from ECDP's manual testing workflow to an automated digital system, cutting repetitive steps and speeding up results.

PROJECTS

ECDP Business Process Digitalization

2026

- Built a Laravel 13, Laravel Reverb, MySQL, and Tailwind CSS system replacing ECDP's manual Google Forms/spreadsheet workflow — cutting data-flow setup from 2 days to 1 hour and reducing repetitive work by roughly 70%.

ECDP Data Analysis

2026

- Analyzed competency-mapping data for around 60 employees per department in Excel to identify skill gaps and produce tailored Training Need Analysis recommendations.

KIP-K Unsika Information System

2026

- Built an end-to-end student information portal for KIP-K UNSIKA using Laravel and Filament, featuring news management, KHS transcript records, scholarship tracking, downloadable official letters, FAQ, and complaint handling.

Invoice Generator

2025

- Built a web app automating transaction pricing calculations, cutting invoice creation time from 5–10 minutes to under 2 minutes with 100% accuracy.

FindUp

2024

- Designed the architecture in Figma and implemented it on GCP using App Engine, Cloud Storage, Compute Engine, and Cloud SQL.

LEADERSHIP & ORGANIZATIONAL EXPERIENCE

HIMTIKA (Informatics Student Association, Unsika), Karawang, West Java

Jan 2022 – Sep 2024

Head of Information & Communication Division

- Set the division's annual work program, success metrics, and role assignments, and launched two new departments (Media Information, Creative Media) to sharpen task ownership.
- Grew the official HIMTIKA Instagram following by over 1,000 through a refreshed social media strategy.
- Led publication and communication strategies that increased Informatics student participation in HIMTIKA activities compared to the prior year.

GDSC (Google Developer Student Club) Chapter Unsika, Karawang, West Java

Dec 2023 – Aug 2024

Events and Program Member

- Managed technical preparation, run-of-show, and speaker coordination for roughly 10 workshops and technology bootcamps.
- Partnered with the publicity team to help drive up event registrations, and compiled post-event evaluation reports to improve future operations.

Pekan IT Unsika 2023

2023

Publicity, Decoration & Documentation Division Coordinator

- Coordinated publicity, decoration, and documentation strategy for a national-scale event via social media, increasing registrations over the previous year.

TRAINING & CERTIFICATIONS

Bangkit Academy led by Google, GoTo, Tokopedia, and Traveloka — Online

Sep 2024 – Dec 2024

Cloud Computing Track (MSIB Independent Study Program)

- Studied and applied cloud infrastructure architecture using Google Cloud Platform (GCP) services including Compute Engine, Cloud Run, Cloud Storage, and Cloud SQL.
- Served as Cloud Engineer on the capstone team project, designing, deploying, and securing the backend API for the "FindUp" application with IAM-based access control and environment separation.

Dicoding Indonesia — Online

2024

- 7 courses covering web & software development fundamentals, full-stack development (DBS Foundation Coding Camp), applied AI, and Google Cloud engineering/back-end/ML.

International Business Machines Corporation (IBM SkillsBuild) — Online

2025

- Data Classification and Summarization Using IBM Granite.

Singaperbangsa English Proficiency Test (SEP-T) — Universitas Singaperbangsa Karawang

2025

- Score: 440
